

# CC4-v2.5 | Fixed-family target resolution

## May exposed historical diagnostic

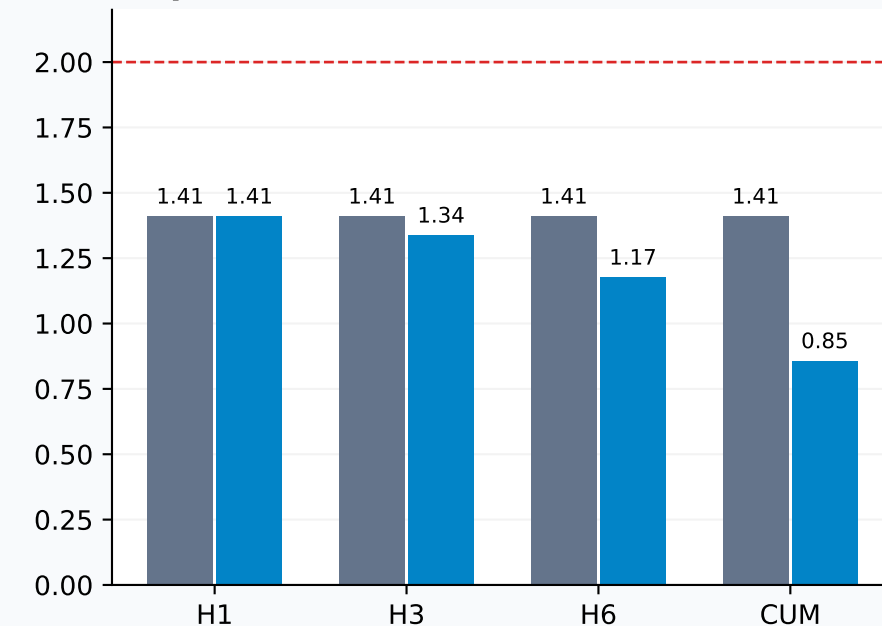

### Q90 empirical coverage

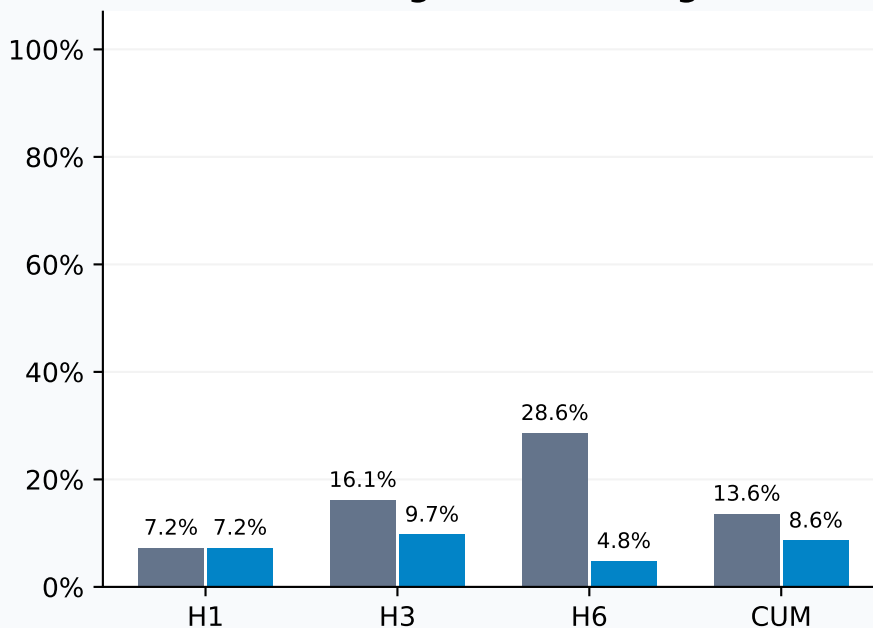

### Q90 pinball / duration / frozen TRAIN scale

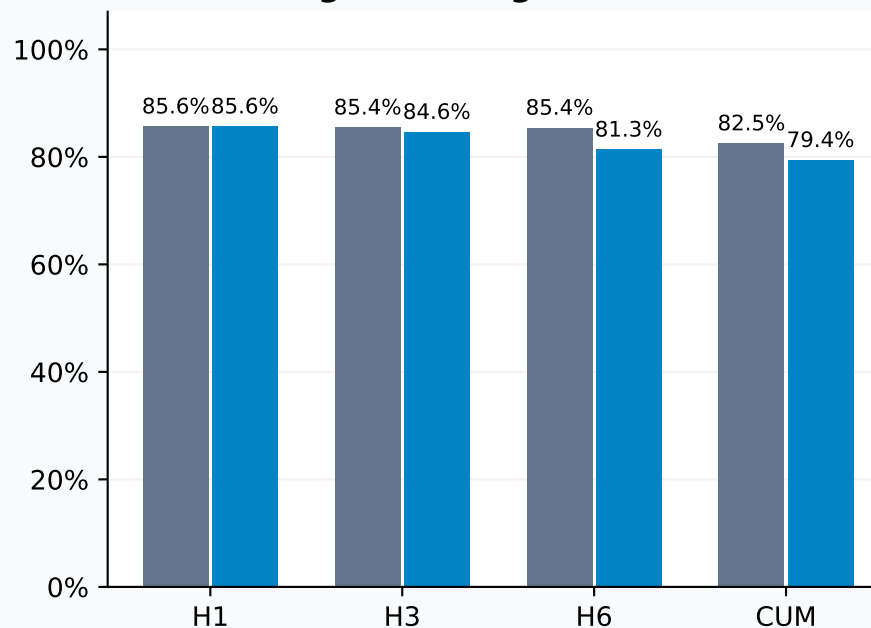

### Requirement ratio (CUM terminal 24h)

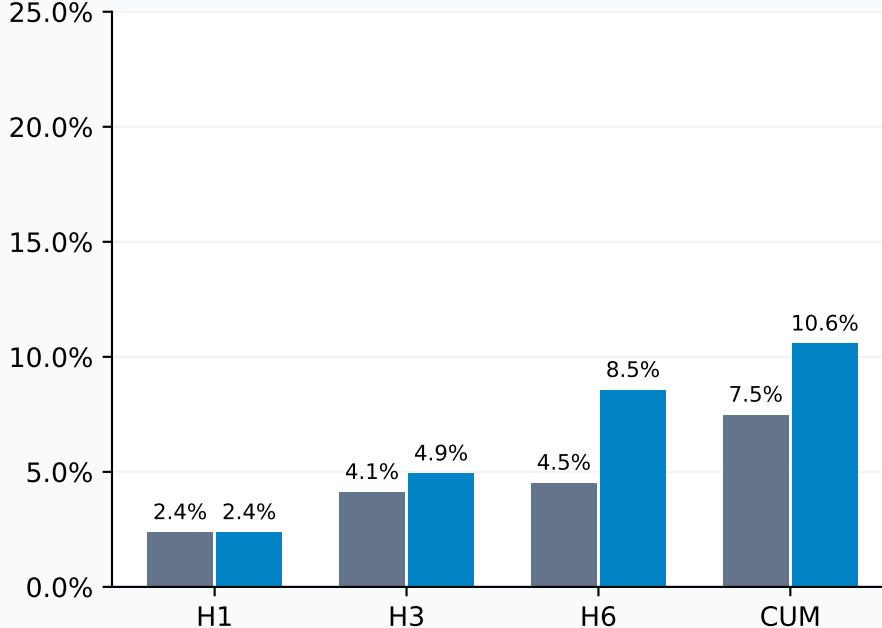

### TRAIN-defined high-load coverage

### Positive-target coverage

### Absolute calibration error

DEV/CAL primary: H1. CUM prefix scores are marginal; prefixes are not added as reserve.  
Same-target direct-versus-sum and cross-target resolution effects are distinct. Provenance UNVERIFIED / UNOBSERVED.
